MONEY, BONDS AND STOCKS.

A Decrease of Activity in New York, with Lower Prices for a Majority of the List. NEW YORK, June 13.-Money on call was easy at 101; per cent, the last loan being made at 14 per cent; closing offered at 14 per cent

Prime mercantile paper, 4 @6 per cent. Sterling exchange was active and firm at 16.862 for sixty-day bills and \$4.882 for de-

The total sales of stocks to-day were 259,059 shares, including the following: Delaware, Lackawanna & Western, 6,800; Erie, 14,735; Lake Shore, 19,230; Louisville & Nashville, 5,410; Missouri Pacific, 5,920; Northwestern, 17,-435; Northern Pacific preferred, 5.100; Oregon Pranscontinental 6,610; Reading, 80,215; Richmond & West Point, 3,710; St. Paul. 39,950;

Union Pacific, 17,050; Western Union, 9,008. The stock market was less active to-day, but somewhat irregular and highly feverish, with special weakness in a few securities. The result of the day's trading is to leave most of the list fractionally lower than last night's prices. There was considerable buying for London by dealers, and the tone at the opening was quite strong, but the professionals were inclined to resist the advance, and further lines of "shorts" were put out all around the room. The declaration of the dividend on Western Union had some attle effect in rallying the list, but the covering of "shorts" was the principal lever by which prices were lifted in the afternoon. The most severe pressure to-day was on the trunk-line securities, and Lake Shore was a sufferer; the atable. Among the specialties, Oregon Navigathe loss was afterward recovered. Chicago was a heavy seller of the grangers, and this did much to restrict the afternoon's advance to the small proportions which it attained. The opening was somewhat irregular, though generally strong, and advances over last night's figures extended to i per cent. This advantage was further increased in the early trading by fractional amounts, St. Paul and Reading leading the advance. The movement was of but short duration, however, and the entire list soon yielded to the pressure brought to beer, and Missouri Pacific dropped 14 per cent. on the expected reduction in the dividend, followed by 5t Paul, Louisville & Nashville, and the others. The market then became dull, and little movement was seen in the list until after 12 o'clock, when the Oregon stocks took a header, though the rest of the list sympathized only to the ex-tent of fractions. Good buying was noticed at the lower figures, and the list, on a fair business, was brought to the neighborhood of first prices. The great majority of the list is lower this evening, though fractions measure the losses in most of them, but Lake Shore and Oregon Navigation lost 11 each and Oregon Transporta-

Redroad bonds were quiet, and, except for the Erie seconds, upon which the "bears" made a special attack, there was no feature of interest. The bonds mentioned figured for \$230,000 out of the total day's business of \$1,330,000. The general list was irregular in tone, but final thanges are, in most cases, for higher prices. Knoville & Ohio firsts rose 2, to 100; Kansas Pacific sixes of 1895, 2, to 112; Utah Southern general sevens, 4, to 98; the extension sevens, 2, to 95; and Wabash, Detroit division certificates, 4, to 109. Burlington, Cedar Rapids & Northern fives lost 2, at 98.

Government bonds were dull and steady.
State bonds were entirely neglected. Closing

CHICAGO, June 13.-There was considerable weakness shown in grains and provisions on Change early to-day. The markets were unset tled, and such news as was affoat was of a conflicting character. The pits were without leaders, especially on the "bull" side, and with the crowd afraid to "short" the markets and not enough "bull" news for big buying, there was nervousness all around. Wheat was first steady, then weak, then strong, and, toward noon, weakened the second time without much sign of another rally. July sold at 84%, 83% to 84%, and back to 84%. Among the bullish influences were reports from France and Italy that crops there were in danger from the chinch bug. From appearances the smaller professionals got traded up around top figures and were anxiously waiting a chance to unload. With the exception of some buying of December wheat for foreign account, and free selling by St. Louis, the trading was almost exclusively local. The St. Louis people sold on reports that wheat harvest will soon commence in the country south and west of them. Statistician Dodge sent out another dispatch in which he estimated the winter wheat area at 28,000,000 acres and the spring wheat at 13,300,000 acres. July wheat reacted to 84 c and closed at 84 c. The receipts of corn were 708 cars, considerably more than the estimate, and prices opened ic under last night. The prospects of large receipts for to-morrow caused another set-back after a rally had put prices up nearly Ic. Independent of the special weakness caused by the receipts, the situation appeared strong. July opened at 521c, sold off to 521c, and up to 531c, then back to 52fc, and toward the close railied the second time with wheat and closed at 53tc, or to over last night. Oats quiet and without secial feature. July oats sold closed 321 @33c and latter figure. The provision trade recovered a little of its old-time interest. Under the influence of advices from the stock yards, where hogs were in better supply and lower, the "bear" element felt encouraged to hammer the market. The morning opening was comparatively strong, but free selling turned the tide, and from the highest prices touched pork declined 20 2274c, lard, .05 2.074c, and short ribs. 10c. Later a considerable portion of this break was regained. July pork opened at \$13.80, ranged at \$13.60 æ
13.87\frac{1}{2}, and closed at \$13.77\frac{1}{2}. July lard opened
at 8.57\frac{1}{2}c, sold down to 8.52\frac{1}{2}c, and closed at
8.55c. July short ribs opened at 7.57\frac{1}{2}c, sold at
7.50\varphi 7.60c, and closed at 7.55c. The leading

INDIANAPOLIS MARKETS.

Trade Fairly Active, Coffees Weaker, Sugars

INDIANAPOLIS, June 13. There was a fairly active trade in progress to-day and on most articles a firm tone to prices prevailed, Coffees go off, reasted grades, ic: and green coffees rule weaker. The New York Commercial Bulletin says: "It is not an easy matter to restore confidence in the market for Brazils when once the demand receives a positive check, and regular business in consequence continues to drag, with more or less irregularity of tone extant. Some of the trade insist that the strong features of the general situation have in no way become modified and that simply a change of 'sentiment' has set in that will gradually be overcome and lead to a renewal of trading; while on the other hand is the claim that there was altogether too much sentiment in the recent advance and the market is now settling to a plane more in accord with existing governing elements." Sugars rule firm and the demand is good. The prospects that canned goods are to be plenty and cheap the next twelve months are very favorable. The California peach crop, it is reported by recent advices, will be the heaviest upon record some authorities venturing so far as to put it enormous. The shipments of fresh fruit to the East will undoubtedly be heavy during the season, and the pack the largest in the history of the industry on the Pacific coast. The packers are guaranteeing full deliveries upon contracts made, and well they might under the prospects as they are viewed to-day. Though some authorities state that apricots will prove short in quantity, others state that the fruit will be of superior quality, and probably of an average yield. The produce markets are active. Cabbage lower, and strawberries, with larger receipts, plenty, but prices still rule firm. Other markets firm in tone, and presenting no features calling for comment GBAIN.

Seldom is the local market as flat and uninteresting as at the present time. If anybody wants anything it is not made apparent in their bid-
